Resolution

The following resolution

Lots of discussion have been made with two parents and we have recorded the following issues:

1. The number of Computers in the Computer Lab is not sufficient for $87+87 = 174$ students. Few Computers are old and they may be replaced by upto date Computers.

All the Computers are not connected with LAN and internet facility.

No technical staff is there in the Computer Lab. and hence students and research scholars are facing technical & managerial problems.

2. There is no cheap shop for students stationeries in the campus.
3. There is no cheap canteen in the campus. Lots of students are coming from poor family.
4. The class rooms are equipped with LCD projectors, Computer and internet. But, there is no smart class room in the department.

The meeting ends with thanks to the Chair.
