

List of Figures

Figure No.	Title of the Figure	Page No.
Chapter – 3		
3.1	Flow chart of the research methodology adopted for this research	30
3.2	Location of the schools taken as samples for the present research	31
Chapter – 4		
4.1	Bar graph showing the availability of permanent librarian	38
4.2	Number of Supporting Staff	39
4.3	Bar graph showing the existence of separate reading room	40
4.4	Histogram showing the seating capacity in reading room	41
4.5	Pie graph showing the availability of furniture	41
4.6	Histogram of total collection of books	42
4.7	Figure shows the opinion of the librarian whether the collection of the library is sufficient or not	43
4.8	Opinion of librarian regarding the optimum library collection	44
4.9	Bar graph showing the different methods to increase the collections. Total responses have been classified into three choices: single double and multiple along with their percentage	45

4.10	Histogram showing the total amount required to increase the collection	47
4.11	Pie graph showing the percentage distribution of the authorities responsible for the selection of books	48
4.12	Graph showing the existence of book selection committee	49
4.13	Graph showing the availability of newspaper and magazine in the library	49
4.14	Graph showing the opinion about the utilities of multimedia resources in the library	50
4.15	Bar graph showing the types of shelves in the library	50
4.16	Pie graph showing the different book arrangement methods adopted by the school libraries	51
4.17	Bar graph showing either all the books in the library are catalogued or not?	52
4.18	Pie graph showing the cataloguing system adopted in the library	53
4.19	Graph showing the reasons responsible for not cataloguing the books	54
4.20	Bar graph showing the availability of catalogue cabinet in the library	55
4.21	Bar graph showing the availability of classification schemes in the library	55
4.22	Compound bar graph showing the different problems to follow classification schedule	57
4.23	Pie graph showing the different means of circulation systems available in the library	57

4.24	Histogram showing the percentage of books issued per day in the library	58
4.25	Pie graph showing percentage distributions of different services provided by the library	59
4.26	Bar graph showing the different barriers to providing service to the library users	60
4.27	Bar graph showing the availability of Internet connection in the library	61
4.28	Pie graph showing the different type of services that the library authorities are willing to deliver	63
4.29	Bar graph showing the status of pest control in the library	64
4.30	Bar graph showing the percentage distribution of schools where weeding out of books is done in a regular basis	64
4.31	Pie graph showing the eagerness of the students about using the library	65
4.32	Bar graph showing the distribution of the factors that create problems to operate the library in different schools	66
4.33	Pie graph showing the distributions of various steps that needs to be taken to increase the interest of students regarding using library	68
4.34	Bar graph showing the availability of public libraries around the school	69
4.35	Bar graph showing the percentage distributions of school where a special section for the physically challenged students is present	69

Chapter – 5

5.1	Thematic map representing the district wise distribution of availability of librarian as an appointed librarian in the school library	73
5.2	Thematic map representing the district wise distribution of numbers of supporting staff in the school libraries	74
5.3	Thematic map presenting the district wise distribution of availability of reading room in the school library	76
5.4	Thematic map showing the district wise distribution of seating capacity in reading room in the school library	77
5.5	Thematic map representing the district wise distribution of total book collections in the school library	80
5.6	Thematic map showing the district wise distribution of the opinion of the librarians regarding the sufficiency and insufficiency of their library collection	81
5.7	Thematic map representing the district wise distribution of anticipated amount needed for a year to increase the library collection	83
5.8	Thematic map showing the district wise distribution of types of shelves in the library	85
5.9	Thematic map representing district wise distribution of arrangement of books on the stack	87
5.10	Thematic map representing the district wise distribution of availability of full catalogue of the documents in the school library	88
5.11	Thematic map representing the district wise distribution of types of physical entry of cataloguing	90

5.12	Thematic map showing the district wise distribution of availability of catalogue card cabinet	92
5.13	Thematic map showing the district wise distribution of the schools regarding the use of classification scheme	94
5.14	Thematic map showing the district wise distribution of circulation systems in the school library	96
5.15	Thematic map representing the district wise distribution of total book issued daily in the library	98
5.16	Thematic map showing the district wise distribution of the school libraries having internet facility	99

Chapter – 7

7.1	Schematic layout of the proposed School Library Information System	120
-----	--	-----

Appendix – 4

Figure 1	Locations of schools where librarians must be appointed	161
Figure 2	Location of schools where atleast one supporting staff is required	161
Figure 3	Location of schools where separate reading rooms are required	161
Figure 4	Map showing classification of schools in terms of total number of students	162
Figure 5	Map showing classification of schools in terms of the recommendations of total collection as per the Standard- 4	162
Figure 6	Map showing classification of schools in terms of the recommendations of books issued daily as per the Standard- 5	162
Figure 7	Map showing classification of schools in terms of the recommendations of seating capacity as per the Standard- 6	163

Figure 8	Location of schools where documents must be classified with the help of classification scheme	163
Figure 9	Location of schools where library should catalogue all the documents	163
Figure 10	Location of schools where open access shelving is recommended	164
Figure 11	Location of schools where circulation facility should be provided through the library card	164
Figure 12	Location of schools where library must be equipped with internet connection	164
