List of Abbreviation	vi
List of Common Symbols	vii
List of Notations	x
List of Figures	xiv
List of Tables	xvii
List of Algorithms	xix
1 Introduction	1
1.1 Literature Review	3
1.2 Problem Domain	8
1.3 Objective and Scope of the Thesis	8
1.4 Contributions of the Present Work	9
1.5 Outline of the Thesis	12
2 Background Study and Methodology	15
2.1 Preliminaries	17
2.1.1 General Watermarking Framework	17
2.1.2 Key Features of Digital Watermarking Schemes	17
2.2 Methodology	19
2.2.1 Hamming Code	19
2.2.2 Cellular Automata	21
2.2.3 Local Binary Pattern	22

2.2.4	Weighted Matrix	23
2.3	Evaluation Metric and Datasets	24
2.3.1	Evaluation Metric	24
2.3.1.1	Mean Square Error	24
2.3.1.2	Peak Signal to Noise Ratio	24
2.3.1.3	Embedding Capacity	25
2.3.1.4	Structural Similarity Index Measurement	25
2.3.1.5	Standard Deviation	25
2.3.1.6	Correlation Coefficient	25
2.3.1.7	Normalize Correlation Coefficient	26
2.3.1.8	Q-Index	26
2.3.1.9	Bit Error Rate	27
2.3.1.10	RS Analysis	27
2.3.1.11	Computational Time	28
2.3.2	Standard Image Datasets	28
2.4	Brief Overview of Attacks in Watermarking Scheme	29
2.4.1	Salt and Pepper Noise	29
2.4.2	Cropping	30
2.4.3	Copy-Move Forgery	30
2.4.4	Opaque	30
2.4.5	Blurring	31
2.4.6	Median Filtering	31
2.4.7	Flipping	31
2.4.8	JPEG Compression	31
2.4.9	Inversion	32
2.4.10	Rotation	32
2.4.11	Brute Force Attacks:	32
3	RWS for Image Authentication	33
3.1	RWS-WM	35
3.1.1	Watermark Embedding Phase	36
3.1.2	Watermark Extraction and Recovery Phase	39

3.1.3	Experimental Results and Comparison	41
3.1.3.1	Quality Measurement and Payload Analysis	41
3.1.3.2	Robustness Analysis	47
3.1.3.3	Tamper Detection and Recovery	48
3.2	RWS-CA	52
3.2.1	Watermark Embedding Phase	54
3.2.2	Watermark Extraction and Recovery Phase	58
3.2.3	Experimental Results and Comparison	60
3.2.3.1	Quality Measurement and Payload Analysis	60
3.2.3.2	Robustness Analysis	64
3.2.3.3	Tamper Detection and Recovery	66
3.3	Discussion	72
3.3.1	Salient Feature of this Chapter	74
4	RWS for Tamper Detection	75
4.1	DRWS-LBP	77
4.1.1	Watermark Embedding Phase	78
4.1.2	Watermark Extraction and Recovery Phase	80
4.1.3	Experimental Results and Comparison	82
4.1.3.1	Quality Measurement and Payload Analysis	83
4.1.3.2	Robustness Analysis	88
4.1.3.3	Tamper Detection and Recovery	88
4.2	RWS-LBP-HC	93
4.2.1	Pre-Embedding Phase	94
4.2.2	Watermark Embedding Phase	94
4.2.3	Watermark Extraction and Recovery Phase	97
4.2.4	Experimental Results and Comparison	99
4.2.4.1	Quality Measurement and Payload Analysis	101
4.2.4.2	Robustness Analysis	104
4.2.4.3	Tamper Detection and Recovery	105
4.3	Discussion	108
4.3.1	Salient Feature of this Chapter	110

5	RWS in Tamper Detection and Localization	111
5.1	RWS-LBP-CA	113
5.1.1	Watermark Embedding Phase	114
5.1.2	Watermark Extraction and Recovery Phase	116
5.1.3	Experimental Results and Comparison	118
5.1.3.1	Quality Measurement and Payload Analysis	120
5.1.3.2	Robustness Analysis	123
5.1.3.3	Tamper Detection and Recovery	126
5.2	RWS-LBP-WM-LIP	130
5.2.1	Watermark Embedding Phase	131
5.2.2	Watermark Extraction and Recovery Phase	134
5.2.3	Experimental Results and Comparison	135
5.2.3.1	Quality Measurement and Payload Analysis	137
5.2.3.2	Robustness Analysis	141
5.2.3.3	Tamper Detection and Recovery	144
5.3	Discussion	149
5.3.1	Salient Feature of this Chapter	151
6	Conclusion and Future Scope	153
6.1	Summary of the Proposed Work	155
6.2	Limitation	156
6.3	Future Research Work	159
