

LIST OF FIGURES

Chapter	Figure Legends	Figure No	Page number
Chapter-1	<i>Spectrum of Pathologic and Clinical ST-Segment Elevation Acute Myocardial Infarction (STEMI) and non-STEMI Acute Coronary Syndromes.</i>	1.1	3
Chapter-1	<i>Figure demonstrates the formation of myocardial cell death by its risk factors</i>	1.2	4
Chapter-1	<i>Irreversible Injury</i>	1.3	5
Chapter-1	<i>Management of stroke slide: Dr. Mallum C.B., Neurology Unit, Dept. of Internal Medicine, Juth</i>	1.4	8
Chapter-1	<i>Figure demonstrates the difference between hemorrhagic and ischemic stroke</i>	1.5	10
Chapter-1	<i>Figure demonstrates the platelet-platelet and platelet-leukocyte interaction</i>	1.6	12
Chapter-1	<i>Atherosclerosis Jonas: Mosby's Dictionary of Complementary and Alternative Medicine. (c) 2005, Elsevier.</i>	1.7	13
Chapter-1	<i>Role of Aspirin on COX</i>	1.8	16
Chapter-1	<i>Biosynthesis of Nitric Oxide</i>	1.9	18
Chapter-1	<i>Role of different Nitric Oxide Synthase (NOS)</i>	1.10	19
Chapter-1	<i>This figure demonstrated that how Nitric Oxide imparts a role on Ischemic Stroke and Hemorrhagic Stroke</i>	1.11	21
Chapter-1	<i>Here the timeline demonstrated interaction between basic scientific discoveries and clinical observations involving nitric oxide (NO), nitroglycerin</i>	1.12	22-23
Chapter-1	<i>NO & cGMP reaction on endothelial cells induced by Nitro compounds</i>	1.13	23
Chapter-1	<i>3dimensional structure of dermcidin</i>	1.14	24
Chapter-1	<i>11kDa dermcidin on SDS-PAGE</i>	1.15	25
Chapter-1	<i>This figure demonstrated the Immunoblot analysis of the dermcidin in the plasma of hypertensive subjects after and before the ingestion of aspirin</i>	1.16	26-27

Chapter-1	<i>Figure demonstrates the consequence of dermcidin injection with ADP in the circulation of mice in the development of coronary thrombosis</i>	1.17	27-28
Chapter-1	<i>Journey of insulin in the body</i>	1.18	29-30
Chapter-1	<i>Insulin biosynthesis and secretion</i>	1.19	30-31
Chapter-1	<i>Insulin signaling cascade through the GLUT4 to the plasma membrane.</i>	1.20	32-33
Chapter-1	<i>Figure demonstrates that Structural Features of the Insulin-Regulated GLUT4 Glucose Transporter Protein</i>	1.21	34
Chapter-1	<i>Distribution of GLUT4 in the organelles of cells in insulin stimulated or non-stimulated brown adipose tissue.</i>	1.22	35-36
Chapter-1	<i>A model that depicts the transport of GLUT4 in insulin-responsive cells.</i>	1.23	37-38
Chapter-1	<i>The membrane transport incidents are controlled by SNAREs and SNARE-associated proteins</i>	1.24	38-39

Chapter-1	<i>PDI has the disulphide interchange activity</i>	1.25	40
Chapter-1	<i>Schematic diagram: Twin nature of PDI on neurodegenerative disorders as an example.</i>	1.26	41
Chapter-1	<i>TRIAD effect on Dermcidin in AIHD</i>	1.27	43
Chapter-1	<i>Basics of FRET</i>	1.28	46
Chapter-1	<i>Diagnosis and Classification of Diabetes Mellitus</i>	1.29	48
Chapter-1	<i>Contribution of oxygen in the metabolism of myocardial cells</i>	1.30	49-50
Chapter-1	<i>Gene regulation by the HIF-1α</i>	1.31	51
Chapter-3	<i>The effect of aspirin on the inhibition of platelet aggregation instigated by platelets aggregating agents in normal and AMI subjects.</i>	3.1	74
Chapter-3	<i>Incubation of 0.4 μM dermcidin with normal PRP and its effect on the platelets where aspirin is treated and aggregation is induced by ADP</i>	3.2	76
Chapter-3	<i>Scatchard plot analysis of dermcidin and normal platelets</i>	3.3	77
Chapter-3	<i>Role of dermcidin antibody</i>	3.4	78

Chapter-3	<i>Treatment of 15μM aspirin in the PRP of AMI subjects and the expulsion of dermcidin with the increase of NO production</i>	3.5	80
Chapter-3	<i>Expulsion of bound dermcidin</i>	3.6	81
Chapter-3	<i>Dermcidin binding in presence of aspirin, NO or insulin was analyzed by Scatchard plot.</i>	3.7	82
Chapter-4	<i>Nitric Oxide synthesis in the presence of insulin in platelets from ischemic stroke, hemorrhagic stroke and from normal.</i>	4.1	88
Chapter-4	<i>Plasma insulin level in ischemic, hemorrhagic stroke and normal volunteers</i>	4.2	89-90
Chapter-4	<i>ADP induced aggregation of normal platelets, hemorrhagic stroke and ischemic stroke</i>	4.3	92
Chapter-4	<i>Dermcidin's role on insulin</i>	4.4	94
Chapter-5	<i>Purification of PLASENOS</i>	5.1a	100
	<i>Amino acid sequence of the electrophoretically purified PLASENOS as described in the figure-1</i>	5.1b	
Chapter-5	<i>Stimulation of nitric oxide synthase activity (nmol/mg of protein/hr) of different PLASENOS stimulators</i>	5.2	103

Chapter-6	<i>Synthesis of dermcidin in muscle cells of mice in presence of different (w/v) of cigarette extract</i>	6.1	111-112
Chapter-6	<i>Analysis of the expression of dermcidin-isoform-2 gene by RT-PCR</i>	6.2	113
Chapter-6	<i>Expression of dermcidin in hypoxia</i>	6.3	114
Chapter-6	<i>Dermcidin in high altitude</i>	6.4	115
Chapter-6	<i>Increased level of glucose in the circulation after injecting dermcidin isoform-2 protein to the tail vein of mice</i>	6.5	116
Chapter-6	<i>Impairment of glucose uptake in the muscle cells of mice by DCN-2</i>	6.6	117-118
Chapter-6	<i>Inhibition of the binding of insulin on muscle cells of mice due to the presence of dermcidin isoform-2</i>	6.7	119
Chapter-6	<i>Impairment of GLUT-4 translocation due to the presence of dermcidin isoform-2</i>	6.8	120-121
Chapter-6	<i>GLUT-4 synthesis in muscle cells</i>	6.9	122-123

Chapter-6	<i>Release of stored glucose by dermcidin isoform-2 from liver cells, muscle cells and kidney cells</i>	6.10	124-125
Chapter-6	<i>DEA-NONOate induced cGMP regulation in presence of DCN</i>	6.11	126-128
Chapter-6	<i>Schematic diagram of the mechanism of the inhibition of GLUT-4 translocation</i>	6.12	132
Chapter-6	<i>Dermcidin, insulin, GLUT4 interaction analysis</i>	6.13	133
Chapter-7	<i>Level of glucose and insulin after oral ingestion of insulin preparation to the alloxan treated diabetic mice</i>	7.1	137-138
Chapter-7	<i>Western blot analysis of trypsin treated oral insulin preparation solution</i>	7.2	141-142

LIST OF TABLES

Chapter	Legends	Table No	Page Number
Chapter-1	<i>Low-dose therapy of aspirin recommendation</i>	1.1	15
Chapter-4	<i>Dermcidin concentration (conc.) in Ischemic, Hemorrhagic stroke and in Normal</i>	4.1	91
Chapter-5	<i>Summary of the purification of PLASENOS</i>	5.1	101
Chapter-7	<i>Distribution of insulin in different arteries of the diabetic mice after feeding the milk-insulin to the mice.</i>	7.1	138-139
