

Acknowledgement

No research project can be completed without the motivations, encouragement and help, which we receive from different sources overtly and covertly. In the endeavor of the journey towards my Ph.D., this thesis has been kept on track and seen through to completion with the support and encouragement of numerous people including my mentors, well-wishers, friends, fellow scholars and various laboratories. It is a pleasant opportunity to express my heartfelt thanks to all those people who made this thesis possible and contributed in different ways.

First and foremost, I would like to take the opportunity to pay from the depth of my heart my deep sincere gratitude to the Almighty for the Blessings He had bestowed upon me to do this work.

At this moment of accomplishment, I am immensely pleased to place on record my profound gratitude and heartfelt thanks to my supervisors Dr. Satyajit Saha and Dr. Tapan Kumar Nath, for their guidance during my research and introducing me to the wonderful world of magnetic materials. They extended all facilities and provided inspiring guidance for the successful completion of my research work. Their endless patience and innovative suggestions have always been very crucial during the research period. Their support and scientific attitude have meant a great deal to me. Their constant striving for excellence coupled with their quest for knowledge will always remain a source of inspiration for me. I am deeply indebted to them for their immense help, suggestions and the inspiring discussions during writing and completion of this

thesis. I deem it as my privilege to work under their able guidance. I ever remain grateful to them.

I express my sincere gratitude to Dr. R. R. Pal and Dr. P. C. Jana, former HODs and all the faculty members of physics department, Vidyasagar University, for their continuous help and support during my research work.

I would like to thank the Dean of science and all the staff members of PhD cell, Vidyasagar University for helping me to complete all the necessary formalities from registration to thesis submission.

I like to express my sincere thanks to all my senior and fellow research scholars, especially Pampa di, Krishna, Panda da, Babita, Indrajit, Ramchandra, Samar, Samir da and Poulami for helping me in different measurement, analysis and characterization required throughout my PhD.

At this Juncture I think of my parents whose selfless sacrificial life and their great efforts with pain and tears and unceasing prayers has enabled me to reach the present position in life. Therefore I offer my humble thanks to my parents Mr. Biswanath Pradhan and Mrs. Malati Pradhan, my elder sister Ashoka, her husband Subhashish da, my nephew Babu and niece Koto for their continuous support and encouragement. They always stood behind me at all the moment of my life. I am forever indebted to them. Their constant love and affection have always been a source of strength to me.

My deepest appreciation is to my wife Madhurima, who first encouraged me to do the research. She was always there cheering me up and stood by me at every good and bad times of my research. My thanks are also due for her always being supportive and willingly free me of domestic responsibilities to develop me to the fullest of my potentials in all ways. This work couldn't be completed without her sacrifice, help, support, valuable suggestion and encouragement.

I am also no less thankful to my cute son Baban for making me lough and live with fun.

I am very much grateful to my dearest friends Chiranjit and Asish. They helped me to solve every issue those are related to my PhD. I like to express my special thanks to Chiranjit for sharing his bed and food with me at IIT Kharagpur. Their valuable suggestion helped me to write my paper and thesis in proper way.

I would like to thank all my friends of IIT Kharagpur, e.g. Avik, Soumen, Dibyendu, Mrinal, Deb Dutta, Mukul da, Anupam da, Kunal, Avishek, Sanjib da... for great moments we have had together.

I would also like to thank my beloved friends Lalu, Rabi, Amritendyu, Tapas, Sovoan da, Digambar da, Anirban, Chandan da, Sumans, Santu da and many more for believing in me.

I am also very grateful to all those people here who have supported me in the lab and during the process of research. I am also indebted to all those people at the Vidyasagar University and IIT Kharagpur who have offered great help and assistance in the preparation of the samples and the subsequent analysis of them. It is my great privilege that I had constant support from my friends and family.

Finally, I would like to thank to all those who helped me knowingly or unknowingly during the completion of this work. It is not possible for me to pen down my thanks to all those who helped me directly or indirectly from time in completing this task. Each help is like a brick which contributes in building a structure.

Vidyasagar University
