

ACKNOWLEDGMENT

During my research, I have received a lot of help and cooperation from many teachers, colleagues, scientist and others peoples in various ways. To all of them I hereby extend my sincere thanks and gratitude. First of all, would like to express my deep sense of gratitude to my supervisor **Dr. Jatisankar Bandyopadhyay, Department of Remote Sensing and Geographical Information System, Vidyasagar University, Medinipur**, for his enormous contribution, co-operation and personal involvement in my work. His constant encouragement and everlasting support accelerated the progress and quality improvement of my thesis.

Since the beginning of the study I was inspired by the respected teachers and scientists working in different universities and research organizations. I acknowledge my sincere thanks and gratitude to them as well. I remain particularly indebted to Dr. Nirmalya Das, Department of Geography, Panskura Banamali College and Dr. Sayantani Mukhopadhyay, Department of Geography, Sister Nivedita Government General Degree College, who gave me valuable suggestions and encouragement. I also personally remain very thankful to Dr. Ashis Paul, Department of Geography, Vidyasagar University who has always enriched me with good advice.

I am also grateful to Dr. Parthasarathi Chakrabarti (Former Chief Scientist of Department of Science and Technology) for his constructive comments and suggestion during my research work.

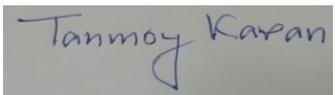

I am greatly thankful to Dr. Abhisek Chakrabarty, Assistant Professor of Department, Remote Sensing and GIS of Vidyasagar University, Midnapore, and Mr. Sikhendra Kisor De (Visiting Faculty, Vidyasagar University, Midnapore, and Retired Director of Geophysics - Geological Survey of India) for their cooperation, constructive comments and support my work.

I am also thankful to all research colleagues like Nirupam Acharyya, Kunal Kanti Maiti, Anurupa Paul, Subrata Sarkar, Panchanan Das, Joydeb Sardar, Lal Mhammad, Suman Das and Mr. Sumanta Saha (Technical Assistant) of the Department of Remote Sensing and GIS of my parent university.

I express my gratitude to the Assistant Director of Agriculture and other officers of all the blocks of Purba Medinipur district for their help and contribution. Without their help and cooperation data collection would not have been possible so smoothly. I would like to thank all the colleagues in the Department of Geography, Panskura Banamali College, who have helped me directly and indirectly. I thank my friend Dr. Kartik Bera, Palash Das, Animesh Majee, Buddhadeb Mondal, Malay Mondal, Surya Panja and others who always helped me. I also sincerely thank to all the local peoples who helped me providing the information during the field survey.

Last, but by no means least has been the genuine mental support and inspiration that I received from my family. I deeply acknowledge their contribution but it remains always difficult for me to thank them adequately.
