

# **ACKNOWLEDGEMENT**

A formal statement of acknowledgement will hardly meet the ends of justices in the matter of expression of my deeply sincere & allegiants gratitude to all who encouraged and helped me during my study.

Behind the accomplishment of this work, there are support and assistance of many persons to whom I wish to express my heartily thankfulness. First of all, I would like to express my sincere gratitude with honour to my guide Prof. (Dr.) Joydev Maity, Asst. Professor., Dept of Fishery Science, Vidyasagar University, Midnapore, West Bengal for selecting me to undertake this research work. I really appreciate the guidance, advices, and constructive criticisms to work.

I am indebted to Dr. Utpal Kumar Sar, Director of Fisheries, Andaman & Nicobar Administration, and Port Blair for his benevolent guidance, valuable suggestion, untiring supervision & encouragement throughout the period of study and preparation of this thesis.

I am thankful to Dr. Ajay Kumar Patra, Rtd. Professor, P.G. Dept. of Zoology, Utkal University, Vanivihar, Bhubaneswar from deepest corner of my heart for his experienced guidance and valuable suggestions to succeed against the arisen challenges during the whole period of conducting the work.

I am grateful to Dr. Bidhan Chndra Patra, Professor in Zoology, Vidyasagar University, Midnapore, providing necessary facility to per sue my Ph.d work. I am also thankful to for giving me an excellent opportunity to work in such a nice institute.

A special thanks to Dr. Basudev mandal, Teacher in charge of Aquaculture Management & Technology, Vidyasagar University, Midnapore for his guidance and support in my work.

In addition, I would like to take this opportunity to thank Dr. Susanta Kumar Dash, Professor, Animal Breeding and Genetics, OUAT, Bhubaneswar for providing technical supports to solve all the difficulties that I faced during the research work.

I extend my thanks to the Headmaster and my colleagues of Govt. High School, Unit-6, Bhubaneswar, for their timely help and co-operation.

Lastly, I would like to thank my beloved family from the core of my heart for their mental support, understanding and encouragement given by them all over the period of research work without which it was impossible to complete this work.
