Resolution:

1. The resolutions of last DC meeting are confirmed.
2. The committee observed that on the basis of present intake capacity of 72 in M.Sc. Physics, the department has only one class room of sitting capacity 60 for 1st and 2nd semester students.
3. The laboratories (Advance practical and Electronics practical) for those students are at present running at the corridor of the department bearing the high risk of instrumental damage and student safety features.
4. On the basis of the above points, the committee resolves that request should be placed to the authority for providing at least one class room of sitting capacity 80 and one laboratory space (approx.. 500 sq. ft.) for 80 students.
5. The committee also request to arrange the space adjacent to the present position of the department, for smooth running, monitoring and supervising the classes and practicals.
6. The meeting ended with thanks to the chair.
